Window well walls and
cover

Landscaping stone replacement starting at \$60 per unit, including both labor and materials.

- Prices are based on a standard-size window well (a window well with a double-hung window or one 2-lite casement window). For larger window wells, a price adjustment will be determined on-site.
- The minimum charge for a single-service appointment is \$100.

How we count windows

- A regular glass panel up to 12 sq. ft. counts as 1 regular window
- A glass panel larger than 12 sq. ft. is counted as 1.5 or 2 regular windows, depending on its size.
- A double-hung window is counted as 2 regular windows.
- Window washing includes cleaning both the exterior and interior of windows (glass only) to remove dirt and grime for a spot-free finish. If you would like hard water stains removed, or screens, tracks, window sills, and frames cleaned, as well as cobwebs removed, please let us know so we can adjust our proposal accordingly.
- Prices are approximate and should be confirmed with the office. An additional fee may apply for any difficult access to windows, such as areas obstructed by bushes or trees, or if ladders are required inside the house. The technician will provide an estimate before starting the work.
- Houses requiring a 32 ft. ladder are subject to an additional charge:
 - \$20 – Suburbs
 - \$40 – Chicago
- Houses requiring a 40 ft. ladder are subject to an additional charge:
 - \$100 – Suburbs
 - \$150 – Chicago
